

The Right and True PREDICTION

OF ~~Q. 1792~~ 1797

Dr. Partridge's  
PROPHECY

For the YEAR 1712.

CONTAINING

His Astrological Judgments on the Twelve Months, and Four Quarters of the Year; with the Transactions that will happen throughout *Europe*; with many Things relating to *England* in particular, and the certain Time of a General Peace.

Likewise the Deaths of several Great Men at Home and Abroad; Especially of Three Crown'd Heads, that will Expire all in one Month.

TOGETHER WITH

His Judgments on the Weather; the Full and Changes of the Moon. A Table of the Terms, and Eclipses. As also Mrs. Dorothy Partridge's Speculum, containing many necessary Observations relating to *Love* and *Marriage*, particularly the Good or Bad Days for Courtship, Business, or Travel by Land or Sea.

---

By J. Partridge, Student in Physick and Astrology.

to which is added, The RATES of Coaches and Chaires, as settled by Act of Parliament.

---

London: Printed by J. Read, near Fleetstreet.

# Dr. Patridge's Predictions for the Year 1712, &c.

## *Observations on January.*

**N**OW the Sword of War is Sheath'd, there is time to think of Affairs at Home. There is very great Motion about this time, in most of the Courts of Europe; some are studying means to carry on the War, and others are projecting how to obtain Peace; and so many Contradictions, and several Interests reign, that it keeps the latter long in the Ballance. Something may be dependen on, but not so soon as Men expect. And again I say, be ware of an Old Fox. The Husbandman would not trust the Eagle in his Garden, till he had first saw'd his Claws off. We are very busie at Home, and you will find something come of it. A surprizing piece of News; I will not pretend to mind particulars, but pray God some Enemies to our Government have a fair Deliverance.

First Quarter 5 day, 24 min. past 9 morn. Full moon 11 day, 45 min. past 7 night. Last Quar. 20 day, at 5 min. morn. New moon, 26 day, 48 min. past 9 Night.

This Year begins with dark Weather, inclining to Snow or Sleet. Dry, Windy and Frost toward the middle. Storms of Snow, Wind and Snow, but Mild at the End.

## *Observations on February.*

**S**ome great disappoint ment will happen about this time which will be follow'd by the Death of a Great Man. It looks as the Turks were making great Preparation, which seems to threaten the King of Sweden's Enemies. The Empire under some signal Perplexity, and reliev'd by strange Means. A Great Prince visits England, and pays new Honour to Queen Anne. France begins to fear her Work will

not be done, and therefore Talks of mighty Preparations for War.

First Quar. 4 day, 20 min. past 2 morn. Full moon 12 day, at 12 at Noon. Last Quar. 18 day, 40 min. past 8 at Night. New moon 25 day, 25 min. past 10 Morn.

Fair and Pleasant Weather at the beginning of this Month. Sharp Air and Frosty, with Storms of Hail, and some Rain. Drifts of Snow, Sleet, and Rain. ——— High Winds and sharp Air, ——— but Warmer at the End.

### Observations on March.

**A** Sudden surprize of the loss of some great Town: It will go near to fall upon France.

Poland, Sweden, and all the Northern Countreys are in great Disturbance. Spain is not wanting of her share of these Troubles, and has no way to help her but Peace.

First Quar. 4 day, at 9 Afternoon. Full moon 11 day, 15 min past 12 Night. Last Quar. 19 day, 30 min past 9 Morn. New moon 27 day, at 1 morn.

Good Spring Weather begins this Month. After which some Storms, Wind, and Rains ——— Various Weather toward the middle. ——— Gusts of Wind and Hail ——— Easterly Wind and Rain. — Fair and Pleasant, but Cold.

### Observations on April:

**M**ARS on the Square of Venus and Saturn, betokens some early Action, but it seems Northward. Saturn is a Trine aspect to Venus in the 3d Heaven, shews some great prosperity to the Affairs of the Emperour.

First Quar. 3 day, at 1 in the morn. Full moon 10 day, 19 min past 10 morn. Last Quar. 17 day, 30 min. past 9 morn. New moon 24 day, past 3 Afternoon.

Fair and pleasant Weather at the beginning. — Sudden showers of Hail and Rain. ——— Hot Weather for many days toward the middle. — Flying Clouds with some Rain. — Fair open Weather.

### Observations on May.

**T**HE Trine of Jupiter and Mercury, and the Conjunction of the Sun and Mercury, discovers a wonderful Scene of Affairs in the Western parts of Europe. A great Talk

Talk about *Scotland*,— and hasty News from other Parts. The Death of the *Pope*, and new Troubles in *Italy*.

First Quar. 2 day, 17 min. past 9 morn. Full moon 9 day, 28 min. past 6 Night. Last Quar. 17 day, 39 min. past 3 morn. New moon 24 day, 5 min. past 7 morn. First Quar. 31 day, 16 min. past 4 afternoon.

This Month begins with Fair and pleasant Weather, but somewhat Cold— Some showers of Rain, and Hot toward the middle.— Very Hot, with some Thunder and Lightning.— Wind and Rain at the end.

*Observations on June.*

**T**HIS Month begins with a Quartile of the Sun and *Mars*— which signifies great Troubles in those Parts of the World where these Planets rule. I wish *England* free from her Share. Something will happen very remarkable among the Northern Crowns, and will very probably be followed by a sudden Peace. All seems very quiet at Home.

Full moon 8 day, 34 min. past 1 morn. Last Quar. 15 day, 45 min. past 10 Forenoon. New moon 22 day, at 10 morn. First Quar. 30 day, 15 min. past 7 morn.

High Winds, and some showers of Rain at the beginning.  
— Thunder Claps.— Hot and dry Weather, and pleasant.  
— Gentle Gales of Wind, and some cooling Showers.  
— Very Fair and Hot. Some sudden showers of Rain or Hail near the end.

*Observation on July.*

**V**ariety of News from most Parts, but chiefly from *France*. The Affairs of *Europe* seem more Intricate than they have been for many Years past. I look upon the Death of three Great Princes, in or about this Month, to be infallible. Soon after which, it looks as if an Universal Peace would follow.

Full moon 7 day, 40 min. past 8 morn. Last Quar. 14 day, 51 min. past 5 afternoon. New moon 22 day, at 1 at Noon. First Quar. 29 day, 16 min. past 10 night.

Showers of Rain at the beginning.— Various Weather till the middle.— Then good Harvest Weather.— Gentle Winds, and some Showers; but generally fine Weather to the end.

*Observations*

*Observations on August.*

**S**OME new Feuds at Home about matters of Religion. 'Tis well if some People wou'd let matters rest whilst they're well. Upon the Conjunction of *Saturn* and *Mercury*, it looks as if there was something of a Plot or Conspiracy on Foot; but thank God it will come to Nothing; yet let some Persons take care of the *Tower*.

Full moon. 5 day, 36 min. past 4 aftern. Last Quar. 13 day, 47 min. past 1 morn. New moon 21 day, at 3 morn. First Quar. 28 day, at 12 at noon.

Cool Air and Windy Weather at the beginning.— Sudden Showers of Hail.— Fair and Seasonable about the middle.— Windy and Dry, but much Rain at the end.

*Observations on September.*

**M**ighty listening for News from Abroad, and longing to hear how it Goes.— If Peace be not concluded by this time, expect some extraordinary Event by the War.— All *England* at a Gaze, but pleas'd at this time. The Death of a Woman of great Note; and a surprising Appearance in the Air about the end of this Month.

Full moon 4 day, 30 min. past 2 morn. Last Quar. 11 day, a quar. past 11 morn. New moon 19 day, at 4 aftern. First Quar. 27 day, 11 min. past 1 morning.

Wet Weather at the beginning, and variable to the middle.— Cold Wind, and inclining to Frost.— Wind and Rain.— Gusts of Wind.— Moist Air, and Cold Weather at the end,

*Observations on October.*

**I**F Peace be not Concluded, we are at this time very much Flatter'd with the Hopes of it. Some happy Omens seem to present themselves for *Spain*; and it looks as if an Amicable Conclusion were made of the long remaining Difference between the Houses of *Bourbon* and *Austria*. No bad News to *England*.— The Death of a Gown Man.

Full moon 3 day, 30 min. past 3 aftern. Last Quar. 11 day, before 1 morn. New moon 19 day, 50 min. past 3 morn. First Quar. 27 day, at 1 morn.

Wind with some Rain at the beginning.— Fair Weather for the Season.— Wind, with Showers of Rain.— Inclining to Frost.— Wind, Rain, and Storms of Hail; yet Fair at the end.

*Observations*

*Observations on November.*

**A**Bout the beginning of this Month, the Court of Great-Britain will begin to be Throng'd, and our Queen will be Honour'd from many Crown'd Heads of Europe. A Unanimy in Parliament, with the dispatch of many weighty Affairs. The Air seems to ring with Peace.

Full moon 2 day, 48 min. past 6 morn. Last Quar. 9 day, at 4 Evening. New moon 17 day, at 3 aftern. First Quar. 25 day. 11 min. after 1 morn.

Cold, Raw, and Windy Weather, with Showers of Rain at the beginning. ——— Windy and Dry. ——— Sudden Drifts of Snow, and very Cold toward the middle. ——— Frost and Dry. ——— Raw Cold. ——— Dark Air. Wet and Windy at the end.

*Observations on December.*

**I**F I am not mistaken, the Planets promise a very Happy Time. ——— Our Merchants enlarge their Stocks, and many People will be forward to leave their own Native Land. ——— Another Union. ——— Let the World Guess where I mean. ——— It will displease some ——— but very few that love their Country.

Pray God continue his Blessing to Her Sacred Royal Majesty Queen ANNE, ——— and preserve the Church and the House of Hanover.

*Mrs. Dorothy Patridge's Speculum, for the Year 1712. foretelling the Good and Bad Days that will happen in every Month throughout the whole Year.*

**JANUARY.**

- 1 **N**EW Years-Day,
